# 2014: Twitch plays Pokémon

- ▶ Twitch experiment to allow the Internet to collectively play Pokémon Red
- ▶ Button inputs sent via chat
- ▶ The Internet won the game!

<sup>1</sup><https://www.vox.com/2014/3/2/11624084/>

# Today

- ▶ You are going to work on an assembly language function!
  - ▶ Collectively!
- ▶ Problem is in this slide deck
  - ▶ Not the public version on the website; the private version on the Piazza Resources page
- ▶ Google doc for collectively writing assembly code: link in Zoom chat

# Ground rules

- ▶ When you open the document, go to Tools → Preferences and turn off smart quotes, correct spelling, etc.
- ▶ Use an Incognito window if you don't want your edits to be registered to your Google account
- ▶ Make small edits!
  - ▶ We're looking to have lots of contributions!

# The problem

Clicker quiz omitted from public slides
